Dear Mr Clark

surface water drainage, 4-landscape scheme, 5-schedule of materials & finishes & 7-covered &

The Tap And Barrel Duke Street, Littlehampton,

Notification regarding the above application:

Condition Number 3

Development shall not commence until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority.

The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, the recommendations of the SUDS Manual produced by CIRIA.

Winter groundwater monitoring to establish highest annual ground water levels and Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage.

No building shall be occupied until the complete surface water drainage system serving the property has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.

Reason : To ensure that the proposed development is satisfactorily drained in accordance with policies GEN7 and GEN9 of the Arun District Council Local Plan. This is required to be a pre-commencement condition because it is necessary to implement the surface water drainage system prior to commencing any building works.

Decision:

Arun District Council have decided to **APPROVE details reserved by this condition**

This condition is discharged in so far as submission of details relates and refers to the submitted micro drainage details, Surface Water Drainage Plan 1739/SK5 and Construction Details 1739/D5.1.
