

## Notes

1. Detail drawings show layouts and design intent and should be read in accordance with the Landscape General Arrangement drawings, Specifications, and any Schedules.
2. All drawings to be read in conjunction with Consultants' reports.
3. All details and interfaces to be developed with the contractor and key subcontractors.
4. Key references are typical to specification.
5. Drawings may indicate elements to be designed and specified by other consultants for coordination purposes. Please also refer to these drawings, schedules and specifications. Please report any discrepancies to Architect for confirmation.
6. Full fabrication drawings to be provided for approval of all elements, details and interfaces.
7. All existing build-ups and dimensions must be verified on site. Where possible specific assumptions/discrepancies have been noted on drawings but all existing conditions require verification on site. All discrepancies to be notified to the Architect.
8. All materials, surface build-ups, levels and calculations may be subject to change and to be confirmed in later design stages.
9. All interfaces with buildings to be surveyed prior to the commencement of the works.
