The design shows the bench running behind the bins which is fine as a concern was that the bins may have had to of been moved. In terms of Cleansing I note that the bench is accessible the only issue I have is that currently the area is cleaned by a mechanical sweeper. With the bench in place this will not be possible and will have to be hand swept, Verdant have to have the area clean by 8am as part of the contract, which without use of the sweeper may not be possible on a very busy day.
