Hi Mandy,

This is an objection to LU/247/18/HH.

Thank you,

Zac

In addition to the previous comments it appears that no adjustment has been made to the length of the proposed extension and adding that to the height and proximity to our building only adds to the claustrophobic effect this will have on our daily lives.

Regards

Peter Colyer and Janet Shaw

Hello Mr Denton

Further to our conversation in regards to the above, we are very disappointed to see that the very small changes made to the proposed extension, will make little or no difference to the light loss and view of a wall instead of sky from our living room area and kitchen area.

We have lived in this house for some 19 years and have enjoyed the natural light from our back window to be able to work and read and dine at the table. So it will make our lives much harder, because we will have to live by artificial light in the kitchen and dining area of the living room.

From the plans one can see the wall of the extension totally over shadows our rear window and kitchen area and will still be almost 1 metre higher than the existing party wall and fence.

Please note the fence belongs to No11 and we would not be happy for the fence to be removed without discussion and agreement as we have plants attached in places to the fence.

Regards

Peter Colyer & Janet Shaw
