Subject: LU/247/20/PL - 57 River Road, Littlehampton, BN17 5DD

Dear Anita,

In relation to the above, please may EH comment as follows:

- No demolition/construction activities shall take place, other than between 08:00 to 18:00 hours (Monday to Friday) and 08:00 to 13:00 hours (Saturday) with no noisy work on Sunday or Bank/Public Holidays. **Reason:** To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031
- No development shall take place, including any works of demolition, until a Construction Management Plan has been submitted to, and approved in writing by, the Local Planning Authority. Thereafter the approved plan shall be implemented and adhered to throughout the entire construction period. The plan shall provide details as appropriate but not necessarily be restricted to the following matters:
 - a) An indicative programme for carrying out of the works;
 - b) Details of the arrangements for public engagement / consultation both prior to and continued liaison during the construction works;
 - c) Measures to minimise the noise (including vibration) generated by the construction process to include hours of work, proposed method of piling for foundations, the careful selection of plant and machinery and use of noise mitigation barrier(s);

- d) Details of any floodlighting, including location, height, type and direction of light sources and intensity of illumination;
- e) The parking of vehicles of site operatives and visitors;
- f) Loading and unloading of plant and materials, including permitted times for deliveries;
- g) Storage of plant and materials used in constructing the development;
- h) The erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate;
- i) The provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulations Orders);
- j) Measures to control the emission of dust and dirt during construction;
- k) A scheme for recycling / disposing of waste resulting from demolition and construction works i.e. no burning permitted.

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

- No external lighting shall be installed until details have been submitted to and approved in writing by the Local Planning Authority prior to commencement of the development. This submission shall include a layout plan with beam orientation and a schedule of light equipment proposed (luminaire type, mounting height, aiming angles and luminaire profiles). The approved scheme shall be installed, fully assessed by a competent individual when operational to ensure no light creep/bleed, maintained and operated in accordance with the approved details unless the Local Planning Authority gives its written consent to a variation.

Reason: To protect the appearance of the area/the environment and wildlife/local residents from pollution.

- Prior to the commencement of the development hereby approved, a scheme to demonstrate that the internal noise levels within the residential units will conform to the 'Indoor ambient noise levels for dwellings' guideline values specified within Table 4 under section 7.7.2 of BS 8233:2014 and shall be complied by a competent acoustician on sound insulation and noise reduction for buildings and shall be submitted to and approved in writing by the Local Planning Authority. The scheme should take into account the correct number of air changes required for noise affected rooms. The works specified in the approved scheme shall then be carried out in accordance with the approved details prior to occupation of the premises and be retained thereafter. **Reason:** To protect the amenity of local residents in accordance with Policy QE DM1 of the adopted Arun Local Plan 2011 – 2031.
- The residential units hereby approved shall not be occupied unless and until a scheme for protecting the proposed noise sensitive development from noise from the lift shaft has been submitted to and approved in writing by the Local Planning Authority. All works which form part of the scheme shall be completed before any part of the noise sensitive units are occupied. The scheme shall have regard to the principles contained within the World Health Organisation community noise guidelines and achieve the indoor ambient noise levels for dwellings specified in BS 8233:2014. Following approval and completion of the scheme, a test shall be undertaken by a competent acoustician and submitted to the Local Planning Authority to demonstrate that the attenuation measures proposed in the scheme are effective in protecting the residential units from noise. **Reason:** To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031.

- Prior to commencement of the development hereby approved (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), the following components of a scheme to deal with the risks associated with contamination of the site shall each be submitted to and approved in writing by the Local Planning Authority:
1. A Preliminary Risk Assessment which has identified: all previous (historical) uses; potential contaminants associated with those uses; a conceptual model of the site indicating sources, pathways and receptors; and potentially unacceptable risks arising from contamination at the site.
 2. A Site Investigation Scheme, based on (1) above to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site.
 3. Based on the Site Investigation Scheme and the detailed risk assessment (2), an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken.
 4. A Verification Report providing details of the data that will be collected in order to demonstrate that the works set out in (3) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action.

Note: Any changes to these components, (1) to (4) require the express written consent of the Local Planning Authority.

The scheme shall be implemented as approved above and, prior to commencement of any construction work (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), a Verification Report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of that remediation shall be submitted to and approved in writing by the Local Planning Authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. The report shall also include a long-term monitoring and maintenance plan for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action, as identified in the verification report, and for the reporting of this in writing to the Local Planning Authority. **Reason:** To protect the amenity of local residents in accordance with Policy QE DM4 of the Adopted Arun Local Plan 2011 – 2031

- The owner(s) of any commercial property (warehouses, offices, etc.) built before 2000 are legally obliged to hold a copy of an asbestos register for each property in their portfolio. As the proposed development is being renovated into residential use, the Council needs to be satisfied that if any asbestos previously identified is still present, it is either removed or suitably managed to minimise risk to human health as there is no safe threshold for asbestos exposure. A copy of the asbestos register and any remedial strategy (where appropriate) must be provided in writing to the Local Planning Authority, prior to any works commencing. **Reason:** To protect the amenity of local residents in accordance with Policy QE DM4 of the Adopted Arun Local Plan 2011 - 2031

Informatives:

- The granting of this planning permission does not in any way indemnify against statutory nuisance action being taken should substantiated complaints within the remit of the Environmental Protection Act 1990 be received. For further information please contact the Environmental Health Department on **01903 737555**.
- The applicant's attention is drawn to the requirements of the Environmental Protection Act, 1990 and the Clean Air Act, 1993 with regard to burning on site. A statutory nuisance may be caused by smoke and/or ash from fires or noise from the cutting and/or chipping of trees. In addition, air quality could be adversely affected on large projects. The granting of this planning permission does not permit a statutory nuisance to be caused. The Environment Agency should be contacted regarding Exemption Permits to burn on site.

In addition to the above, please may the developer advise whether any provision for electric vehicle charging points is proposed?

Many thanks,

Kate.
