Dear Kerry,

I did discuss your pre app with the Conservation officer on Friday and he is generally supportive, but I understand he will be making comments/suggestions in relation to the lift and width of the extension. I am awaiting his written comments following our conversation. We have no database planning system this week which is likely to result in a backlog of decisions awaiting issue next week, therefore planning application decisions will take priority and it may not be possible to provide the response by Friday 23rd. It is our intention to provide your response by the middle of the following week by 28th at the latest, although every effort will be made to accord with the original response target.

Regards
Anita

Anita Gardner

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.
