To the planning department

I am writing to
you regarding planning permission at
51 Lansdowne Road ref LU/252/17/HH

I am concerned that the
dormer that is being applied for may
block light to my bungalow. There is only
about four foot between the two bungalows
my side having no windows and light is
limited. My concern is the dormer
may block more light. Please can you
tell me if you inspect the property's
before you grant permission and if
you can advise me what effect this
would have.

many thanks
