Subject: Lu/305/14/pl

Dear sirs

I wish to lodge my objections for proposed building lu/305/14 pl .

1) Access to beaconsfield road there is too many cars in the road ie cars park against the wall both this will prevent 4 cars parking where do they then park.

2) is the wall at 120 rear on beaconsfield road listed ??

3) looking at plans would the builder cut hole in wall to allow access to garages

4) dwelling is only allowed two car's to park so firstly six cars miniumn from three houses more traffic for all ready struggling Beaconsfield road.

5) if two vehicles allowed for how can you police if this building goes ahead no one can so more cars.

Is it not possible for new houses to have access into Wick street problem solved.

A asbestos garage has been removed from building site have not seen regestiered contrctor to remove items please advise

Simon downs

41 beaconsfield road

Wick
