---

**This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals which include up to 5 residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Local Development should be considered to be advice only, with respect to this planning application.**

The cabinet is a new unit. In highway terms, there would be no material change to the existing situation. The works do extend over the public highway, and as such traffic management may be required whilst the works are being undertaken. The Statutory Undertaker will also need to submit the necessary notification to the Highway Authority independently and any traffic management will also need to be agreed with the WSCC Community Highway Officer prior to works taking place.
