Dear Sirs,

Planning Application (Householder)

Application Number LU/261/15/HH

I would like to lodge my objection to the proposed "single storey rear extension" This involves the extension of the lower floor balcony by 1.0 metre – an 80% increase on the present balcony width and 100% on its length.

Firstly, the covenants to the Deeds of our properties do not allow any extension of or external addition to the properties. This is eminently sensible and desirable in order to safeguard and protect the view from the popular river side walkway.

Secondly, the extension would overlook adjacent gardens from the 0.75 high balcony extension. This would adversely affect our privacy.

Yours faithfully,

Zothan Khuma
