Ref.: LU/269/18/HH

Dear Mr. Corby,

I am writing further to our recent telephone conversation, particularly re. Committee objection to our proposal.

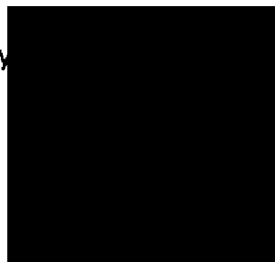

I hope you are right in your opinion that they have the wrong end of the stick. I'd like to point out that our requirement impinges to a very small degree on the lay-by and would cause no inconvenience to the access to the lay-by.

I would also add that there are a number of instances in the area where the passage to a dropped curb and hard standing actually traverses a lay-by, thus (supposedly) denying general parking in that part of the lay-by. How does that work?! No. 68 Beaumont Park and No. 80 Winter Knoll in particular, but there are at least three other examples in Beaumont Park alone. Both these roads are bus routes.

I will be more than happy to submit photos and a sketch of the degree of our impingement on the lay-by, if you feel this would help our case.

Looking forward to your response.

Yours Sincerely

Tom Stratford
