

W/27.5/12/DOC

There is a lot of support in the literature for this, starting up the process of small business financing with a network of contacts and advice about financing (D'Cruz, 2002) and about finding financing (Gardner, 2000). This advice has been a feature of entrepreneur education (Gardner, 2000) and of entrepreneurship training (Gardner, 2000). It is possible that this advice has been a feature of business incubators and business accelerators (Gardner, 2000) and of business support organizations (Gardner, 2000).
