Flood Risk Statement:

- I have considered the flood risk and in order to keep members of the public safe from any possible flooding I will be buying some sand bags to keep on the premises.

As there are not many tables + chairs within my premises there is a clear evacuation route in-case of an emergency such as flooding.

As you have to step up two steps to get into the property, there would have to be a large quantity of water before it started to flood the property.
