Subject: FW: Planning Consultation on: LU/282/17/RES

Hi Michael

Further to submission of drawing no 1140/01 Planting plan we can confirm that the detail is now sufficient in plan form showing the landscaping being proposed, with suitable plant species, density and size at time of planting.

The location of LEAP has also now been confirmed which shows location, planting to surround and connectivity to pathways, which is adequate.

From the information submitted regarding Landscape approval, I would now **recommend that the information submitted under this application LU/282/17/RES following outline consent LU/355/10 can be approved.**

As a point of note regarding a previous query would be to request clarification of parking provision being proposed for the changing facilities ie number of spaces, location and layout of these.

Regards

Sue

Comment from Greenspace

Comment regarding residential apartments and changing facilities building towards the open space and playing fields area to the North East of phase 2 of this application LU/282/17/RES following outline consent LU/355/10.

We comment as follows;

The detail would appear to show a change from the detail supplied at masterplan stage in relation to an element of the POS now to be developed. Whilst the siting of the changing facility is now closer in relation to the proposed sports offer we would require detail in plan form of the landscaping being proposed, showing plant species, density and size at time of planting.

We would require this also for the commercial /residential unit along with confirmation of the parking facilities ie number of spaces and layout, being proposed for both of these.

In addition please seek clarification re the position of the NEAP indicated in the outline application masterplan and now appearing to be in conflict with the proposals indicated under LU/282/17/RES. Please request detail for clarification of the offer being proposed under NEAP.

I would recommend that the above information is requested and supplied for approval before LU/282/17/RES following outline consent LU/355/10 can be approved.
