Dear Sir/Madam

Planning Application LU/284/20/PL

I have become aware that a further planning application for changes to this property has been made, and my concern remains as previously expressed. As a neighbour of the planned development site, I suggest that insufficient consideration has been made to the impact on neighbouring residents and I would like to record my objection to the proposal.

This is an area primarily of owner/occupiers and families, and most properties were built in the early 1900s. Consequently no provision was made at that time for vehicles, and the majority of residents park their cars on the street. Most of the time, all available parking is occupied, and it is not unusual to have to seek a parking space several streets away.

The provision of 3 parking spaces in a development that will comprise 11 homes is inadequate. The number of parking spaces provided within the development should match the number of occupancy units so that residents of the area are not further inconvenienced.

I am also concerned that a multi-occupancy development might detrimentally affect the lives of other residents. Residents of the area are friendly, and the area is quiet and peaceful, except for regular outbreaks of anti-social behaviour from the residents of the property that is the subject of this application.

An alternative type of development, perhaps a smaller number of larger dwellings, would be much more in keeping with the nature of the area.
