Our ref: HA/2020/122744/02-L01
Your ref: LU/295/20/PL
Date: 20 January 2021

Dear Sir/Madam

FRA SUBMITTED - FULL PLANNING APPLICATION INCORPORATING PERMITTED CHANGE OF USE OF PART OF EXISTING OFFICE (A2 PROFESSIONAL & FINANCIAL SERVICES) & USE TO FORM 2 NO. DWELLINGS (C3 DWELLING HOUSES) ON THE TWO UPPER FLOORS (RESUBMISSION FOLLOWING LU/107/20/PL). THIS SITE IS IN CIL ZONE 4 (ZERO RATED) AS FLATS. 15 BEACH ROAD LITTLEHAMPTON BN17 5HZ

Thank you for consulting the Environment Agency on the above application.

We have reviewed the information as submitted and set out our position below.

Environment Agency Position

The proposed development will only meet the National Planning Policy Framework's requirements if the following planning conditions are included.

Conditions

The development shall be carried out in accordance with the submitted plans (ref: Flood Risk Analysis of Site Specific Product 4 Information- 15 Beach Road, Littlehampton, Sussex, BN17 5HZ- Prepared by Graham Nicholls Limited- January 2021) and the following mitigation measures it details:

- Sleeping accommodation is to be located on the First Floor and above

These mitigation measures shall be fully implemented prior to occupation and subsequently in accordance with the scheme's timing/phasing arrangements. The measures detailed above shall be retained and maintained thereafter throughout the lifetime of the development.

Environment Agency
Guildbourne House Chatsworth Road, Worthing, West Sussex, BN11 1LD.

Reason(s)

To reduce the risk of flooding to the proposed development and future occupants

Advice to LPA/Applicant

We strongly recommend the use of flood resistance and resilience measures. Physical barriers, raised electrical fittings and special construction materials are just some of the ways you can help reduce flood damage.

To find out which measures will be effective for this development, please contact your building control department. In the meantime, if you'd like to find out more about reducing flood damage, visit the Flood Risk and Coastal Change pages of the planning practice guidance. The following documents may also be useful:

Department for Communities and Local Government: Preparing for floods

<http://www.planningportal.gov.uk/uploads/odpm/4000000009282.pdf>

Department for Communities and Local Government: Improving the flood performance of new buildings: <https://www.gov.uk/government/publications/flood-resilient-construction-of-new-buildings>

We do not normally comment on or approve the adequacy of flood emergency response procedures accompanying development proposals, as we do not carry out these roles during a flood. Our involvement with this development during an emergency will be limited to delivering flood warnings to occupants/users covered by our flood warning network.

The planning practice guidance (PPG) to the National Planning Policy Framework states that, in determining whether a development is safe, the ability of residents and users to safely access and exit a building during a design flood and to evacuate before an extreme flood needs to be considered. One of the key considerations to ensure that any new development is safe is whether adequate flood warnings would be available to people using the development.

In all circumstances where warning and emergency response is fundamental to managing flood risk, we advise local planning authorities to formally consider the emergency planning and rescue implications of new development in making their decisions. As such, we recommend you consult with your emergency planners and the emergency services to determine whether the proposals are safe in accordance with the guiding principles of the PPG.

The applicant/occupants should phone Floodline on 0345 988 1188 to register for a flood warning, or visit <https://www.gov.uk/sign-up-for-flood-warnings>. It's a free service that provides warnings of flooding from rivers, the sea and groundwater, direct by telephone, email or text message. Anyone can sign up.

Flood warnings can give people valuable time to prepare for flooding – time that allows them to move themselves, their families and precious items to safety. Flood warnings can also save lives and enable the emergency services to prepare and help communities.

For practical advice on preparing for a flood, visit <https://www.gov.uk/prepare-for-flooding>.
