Dear Mr. Gosden,

Further to our telephone conversation yesterday, I am putting the situation with the Flood Risk Assessment in writing as requested. I telephoned you as soon as the consultation arrived in my in-tray to convey the situation to you.

Please find attached the consultation response from the EA for your convenience. You will see the four aspects of concern which were not addressed in the FRA.

The application expires on 28th April and with a turn-around time of 21 days from the EA for any reconsultation, there will be insufficient time to resubmit a FRA.

Therefore, this is to advise that you can either Withdraw this application or await a Refusal in due course.

I trust that this information is of assistance to you.

Kind Regards,
Damian Sullivan
