Dear Sir,

With reference planing application LU/307/13/17/PL concerning the proposed kite sufing school on Littlehampton Sea Front, I would like to register my concern.

Firstly it does seem a very bad precedent to set. Littlehampton, unlike many seaside towns has a beautiful uncluttered sea front and to build on this would spoil the whole character.

Secondly this is almost the only shelter which actually gives protection from the wind and would therefore be a great loss. I do remember that in the early days of Jane Wood's planning application for the East Beach cafe a shelter was included in the plans ( and also I believe a shop) but these did not materialise. Instead a very useful shelter right next to the disabled parking spaces was demolished.

Next do we really need another cafe? There is one at Mewsbrook and one to be in the leisure centre, though I believe a great opportunity was missed here. An upstairs restaurant with a sea view would have been a real success; viz the one at the visitor centre.

As for public toilets why have more if they are to be closed out of season.

I beg you to reconsider this application
