Dear Sirs, Madames,

I have been

Following plans to replace ~~the~~ existing shelter - Sea Road with a cafe & water sports facility. My main concern is the loss of <sup>proper</sup> shelter, as the new ones are useless on a wet & windy day.

(A visitor to CA thought they were just part of the bench!). Can you please reassure me that we will continue to be able to use the building to shelter - without having to buy anything - the cafe? If this is not the case, can you please do something about it, as it is an important facility for locals & visitors alike.

Yours hopefully
