

Papa John's - 5 Arundel-Road, Littlehampton (Existing Signage)

Existing Nearby Illuminated Signage: 5-Arundel-Road-Littlehampton-West-Sussex-BN17-7BY

Ricara - One of the neighbouring stores located next door to the proposed Papa John's store has an internally illuminated lightbox. A similar specification to what has been proposed in our recent Papa John's application, however our proposed signage will have text and logo illuminated only. Giving less light exposure as opposed to that with an overhead trough light or lightbox.

After further review of the recent Papa John's application, we would very much appreciate the opportunity for you to consider this option as opposed to the initial externally illuminated proposal. It's our intention to create a warm and inviting look to the street and surrounding community.

Attached below are images of the existing store fronts and their current illuminated signage.
