Dear Mrs Johnson

I am a colleague of Henry's; I have been making the changes to the maps.

Two of the three that you sent across have been altered to have scales of 1:200 and 1:750, I hope these scales are more identifiable.

I haven't altered the third as that was a scale of 1:1250, I assumed this was okay.

I shall add the dimensions if these scales still aren't satisfactory, would the dimensions of the building to be worked on suffice?, or would you need dimensions of the buildings around also?

If there are any more changes to make; please let me know.

Thanks.

Kind regards

Ben Hunter
