Subject: 13538 5 Arundel Road - Monitoring Update (LU/315/19/DOC)

Hi Anita,

I'm the agent for application LU/315/19/DOC to discharge condition 3 attached to planning permission LU/164/19/PL and have been monitoring the application online.

I note that a local resident has submitted representations outlining concerns with the plant arrangement at 5 Arundel Road. There appears to be some confusion as the plant has been approved as part of the consented documentation, and condition 3 only requires the details of odour control to be provided to achieve a 0.4 second retention time through the activated carbon filters. This information has been provided within application LU/315/19/DOC.

It would be helpful to discuss the details submitted when you have a moment and your timescales for determination, however I appreciate your comments will likely be formulated with your environmental health team.

Kind regards,

Alex
