ACTION ..

PLANNING REF LU/321/18/HH

13 GRAND AVENUE WICK LITTLEHAMPTON

We write to make an objection to the size of the roof development at 13 Grand Avenue. Our property is attached to this as a semi-detached bungalow.

The rear dormer elevation is very large and over bearing with 2 wide windows. This is totally overlooking our back garden taking away our privacy. By the look of the plans it extends from the existing roof over a flat roof.

We are already overlooked through windows in a ground floor rear extension.

The front dormer seems to be up to the shared chimney stack. The overhead electricity supply for our property is attached to this chimney stack and from the drawing this dormer appears to be interfering with the overhead wires.

1. The first part of the paper is devoted to a general discussion of the problem.

1. The first part of the paper is devoted to a general discussion of the problem.

2. In the second part we shall consider the case of a single particle.

3. The third part is devoted to the case of a system of particles.

4. The fourth part is devoted to the case of a system of particles.

5. The fifth part is devoted to the case of a system of particles.

6. The sixth part is devoted to the case of a system of particles.

7. The seventh part is devoted to the case of a system of particles.

8. The eighth part is devoted to the case of a system of particles.

9. The ninth part is devoted to the case of a system of particles.
