FURTHER INFORMATION - CHANGE OF USE OF FORMER UNITED SERVICES CLUB (SUI GENERIS) TO 10 NO. FLATS (C3 DWELLING HOUSE) WITH ASSOCIATED LANDSCAPING, PARKING, BINS & RECYCLING STORAGE.

UNITED SERVICES MALTRAVERS ROAD LITTLEHAMPTON BN17 5NA

Thank you for the consultation on the above application, please quote our reference on all correspondence.

Environment Agency position

we are satisfied the further information is sufficient for our objection to be removed following the below comments:

The proposed development will only meet the requirements of the National Planning Policy Framework if the following measure(s) as detailed in the Flood Risk Assessment (December 2017) and Proposed Building Plans (ref. 0041.PL.002A and 0041.PL.003B, September 2017) and submitted with this application are implemented and secured by way of a planning condition on any planning permission.

The development permitted by this planning permission shall only be carried out in accordance with the approved Flood Risk Assessment (FRA) (December 2017) and the following mitigation measures detailed within the FRA:

- **Finished floor levels are set no lower than 5.20 metres above Ordnance Datum (AOD).**

The mitigation measures shall be fully implemented prior to occupation and subsequently in accordance with the timing / phasing arrangements embodied within the scheme, or within any other period as may subsequently be agreed, in

Environment Agency

writing, by the local planning authority.

Reason

To reduce the risk of flooding to the proposed development and future occupants.

Informatives

We recommend that the owner/occupants sign up to the Environment Agency Flood Warning Service and have a flood evacuation plan.

Please note that it is not our role to assess any details on flood evacuation or emergency plans, as we do not carry out these roles during a flood. Our involvement with this development during an emergency will be limited to delivering flood warnings to occupants/ users covered by our flood warning network. In all circumstances where warning and emergency response is fundamental to managing flood risk, we advise Local Planning Authority's (LPAs) to formally consider the emergency planning and rescue implications of new development in making their decisions.

The PPG states that LPAs should consult their emergency planning staff to ensure evacuation plans are suitable through appropriate planning conditions (PPG Ref ID: 7-057-20140306).

We therefore recommend seeking comments from your Local Authority emergency planners.

We recommend that consideration be given to use of flood mitigation measures to reduce the impact of flooding when it occurs. Flood mitigation measures include barriers on ground floor doors, windows and access points and bringing in electrical services into the building at a high level so that plugs are located above possible flood levels. More information can be found in the communities and local Government publication 'Improving the flood performance of new buildings' which can be viewed at:

<http://www.communities.gov.uk/publications/planningandbuilding/improvingflood>

Please do not hesitate to contact me on the number below should you have any queries.

Yours faithfully

Miss Suz Greenwood
