Subject: Nelson Hotel demolition

Hello Mrs Gardner

I am the next of kin (nephew) of Mrs Norah Richards who lives in the flat above #60 Pier Road next to The Nelson pub.

My auntie is 91 and so unstable on her feet she no longer leaves her flat...a neighbour informed her of the demolition of The Nelson.

I am very concerned for her health and was with her at the weekend (I live in Somerset).

She wants to stay in her flat as long as she is physically able but I am worried the works may prove very disruptive.

Over what sort of period will the demolition take place? Her flat is on the party wall and as she is there all day it will be a nightmare for her for possibly weeks(?)

Would the builders perhaps fund some respite care locally (if she agrees to it!), or can we be assured the works will be days rather than weeks?

I hope that some solution can be found to minimise my Aunties stress levels... she was born on Pier Road and has seen many changes...they don't seem to be diminishing towards the end of her life...

Best regards
Neil Steeden
