Dear Sir/Madam,

I would like to have permission to extend my fence on the outer boundaries of my property.

The reason why is because the planting left by the developers grows so quickly (6ft/year) that is becoming a nuisance to my neighbour whose parking place is adjacent to my boundaries.

Each year we have to pay a gardener to trim the planting back and this year my neighbour took it upon themselves to have all the planting, including trees, to be completely cut down. This has taken away our privacy into our garden. The neighbour has also sprayed weed killer (see brown parts to planting on photographs) and has destroyed anything that would have grown back.

It has left the space looking un-kept and also has allowed fly tippers to leave waste there (picture enclosed of the waste we have cleared up).

We feel the only resolution would be to allow us to extend our fence onto our boundaries to allow us to keep the planting from spreading into the driveway.

We would propose to use 6inch gravel boards and 5"6 wooden panels to be erected, see enclosed picture.

We would leave half a metre to allow our neighbour to view the corner when turning out and also to allow them space to enter their vehicle.

I have enclosed several pictures of the space where we would like to enclose and also marked it on the picture of our boundaries. Boundaries marked in red and alterations marked in green.

We look forward to your response and hope to have a resolution as quickly as possible.

Kind regards

Maria Bull
