

Ground Floor Plan & Elevations - Existing

Roof Plan

Ground Floor Plan & Elevations - Proposed

Roof Plan

Proposed Alterations to Existing Building:
1. Extend entire building rearwards by 24 metres.
2. Incorporate roof lights, high level glazing, roller shutter door and emergency egress doors to new extension.
3. Clad building in colour-coated composite steel claddings with contra-colour perimeter trims, flashings and rainwater goods.
4. Replace existing windows to match new in colour-coated aluminium.

Materials & Finishes
Roof: Colour-coated steel to match composite cladding of extension
Walls: Profiled colour-coated composite steel cladding
Windows: Colour-coated aluminium as contra colour items

Planning Issue

Window added to plan views of Office/Toilets area to correct drafting error.		7/1/14
