For the attention of Mr A Wood

22 Beach Crescent
Littlehampton
West Sussex
BN17 5NT

10 February 2020

Dear Sir

Planning Application LU/341/19/PL

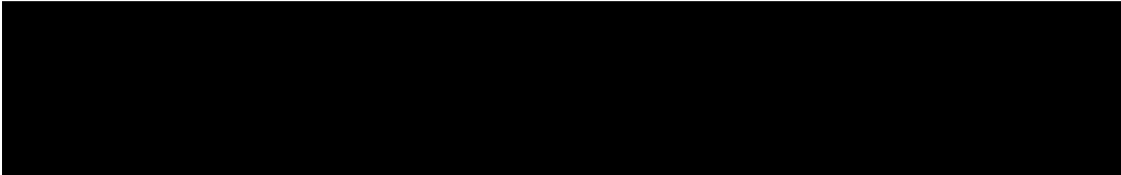

We wish to lodge our objection to the above planning application.

As a number of residents have already mentioned, this proposal will incur months of major inconvenience, ingress of dust and noise pollution, all of which could have deleterious effects on residents' health.

The building will be altered aesthetically to such an extent as to make the external appearance on the south elevation completely different to all other flats on the third floor. These works are contrary to the conditions of our lease.

Several flats in Beach Crescent have been renovated and modernised over the years and no objections could possibly be made to that, this, however, does not fall into that category.

Yours faithfully

Mr and Mrs D Butler
