Dear Andrew

Further to our email correspondence I can confirm that at the request of the Conservation officer we have changed the PIR Ramp wall lights to the following specification.

Make / Model (or Similar) Edit Quartz Outdoor wall light with PIR sensor - Anthracite

- Aluminium wall light in an anthracite finish with an opal polycarbonate diffuser
- Size circa H260 W 185 D 112mm

The appointed contractor will be requested to purchase these or a very similar model

Kind regards
Emma

Hi Andrew thank you for the email.

The wall mounted lights are to be PIR with 4 no spaced evenly along the left hand wall. I attach another more traditional fitting that is similar to that you suggest but also PIR. Would this be acceptable?

Kind regards
Emma

LU/331/18/DOC – details acceptable –decision notice to be issued in next few days,

LU/344/18/DOC – details acceptable except for style and location of lighting;

The Conservation Officer has stated scheme acceptable except ' I do have some concerns with the proposed lighting. It does appear to be very modern in design and such that it would not necessarily reflect the character of the building. I wonder if a more discrete system been considered?
Further, it is not clear if all of the lights will be located along one short stretch of the new walling, or at various points of the wall. As a consequence, can the location of the lights be confirmed?

The location of the 4 lights are likely to be acceptable . We just need a plan showing where they are to be installed. Can you please provide a style of wall lighting to illuminate the disabled access that will be more character of the existing building. I do appreciate that the wall lighting is at a low level and needs to accessibility friendly however if you could have a think about it.

An example would be https://www.lighting.philips.co.uk/consumer/p/mygarden-wall-light/1739330P0

Or perhaps internal lights might be more appropriate.

Thank you,

Andrew Wood MRTPI.

Hi Andrew

Please note that I dropped off the marked up samples for your attention at ADC reception earlier. I hope that you have everything you need now to approve the DOC.

Many thanks
Emma

Good morning Andrew
I am sadly still awaiting the samples for the porch. I hope to have them soon. Therefore may I ask for an EoT so that I can get the samples over to you?
In the meantime, I attach the images of the suggested Disabled access panel for the porch (on a stand) and the Access panel for the entrance gate.
I look forward to hearing from you
Kind regards
Emma

Emma,

LU/331/18/DOC - Materials condition discharge

Could you please provide samples of the glazing for the walls and roof and the supporting bars inside the glazing and a photo of the 'disabled access door release point'.
Your application has been registered.

Thank you,

Andrew Wood
