Dear Ms Fry,

Thank you for your consultation response on the above application.

This application will be approved, because it is believed that the application will not have a harmful impact on the operation of the road network (as stated in your response), and there is not considered to be any significant harmful impact on the character of the locality (predominantly as a result of similar crossovers in the locality).

We note that in you comment, you go on to say that a license to construct a VCO in this location would not be granted, as it would result in the loss of amenity land. The informative regarding licensing will be include as an informative on the planning approval.

Kind regards,

Zac
