Subject: RE: Planning Consultation on: LU/375/17/PL

App No: LU/375/17/PL

Address: The Bungalow Southdown Nursery Old Mead Road Littlehampton BN17 7PU

Proposal: Change of use of land for the stationing of 25 No. mobile homes for permanent residential occupation. Departure from the Development Plan.

Water voles

Due to the presence of water voles within the ditch onsite we require that a 5m buffer is created from the ditch to ensure there is no disturbance. Heras fencing should be used during the construction period to ensure no works or vehicles encroach on this area. To ensure the protect the water voles post construction we require that a habitat management plan is put together to detail how the area will be managed for water voles. A condition can be used to ensure this takes place.

Bats

The lighting scheme for the site will need to take into consideration the presence of bats in the local area and the scheme should minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding.

Reptiles

To ensure the site remains unsuitable for reptiles, continued management of the site must take place to ensure reptile habitat does not develop onsite. If this is not possible then a precautionary approach should be taken within the site with regards to reptiles.

Nesting Birds

Any works to the trees or vegetation clearance on the site should only be undertaken outside of the bird breeding season which takes place between 1st March – 1st October. If works are required within this time an ecologist will need to check the site before any works take place (with 24 hours of any work).

Kind Regards

Liz
