68 Old Mead Rd

Lymington,

Littonhampton

BN177PU.

To whom it may concern,

Last week it was brought to our attention that there are 2 planning Application notices at either end of the road re a Solar Farm.

On further investigation it appears that we, the residents of Old Mead Rd have not been approached by anyone about this.

As you probably know Old Mead Rd is an apparent "unadapted Road" which is why now it is in a state of disrepair. - A few of us residents have already had punctures and needed new wheels

due to the patindas already in the road and we have no way of being compensated due to the road being unadopted!

huge lorries travelling backwards + forwards up this road will only make it worse, and from all the plans that have been made and everything that has been written, there is nothing stating that the road will be repaired after the work is finished.

There are other issues that we are concerned about too regarding this Solar Farm -

Wildlife - we have Bats + Barn Owls here - both are protected.

Noise - while it's being built and afterwards.

13,200 solar Panels, generators!

Years ago the site was a landfill area - who knows what was buried there, consists etc.

last Saturday 14th Feb - residents met with MP Nick Gibb about our concerns - we are not happy and have asked Nick Gibb to correct yourselves, and the people who are 'happy' to build the solar farm.

There has been no consultation with us the residents of Old Moor Rd at all, which is a disgrace as it's going to impact greatly on our lives.

One last question, there is another access point to be able to reach the fields - why not use that? - Through the farm itself!??

Yours Sincerely

P.S. - Can I just say that the Planning Application notices have been put in very poor positions - one on the way into the road, that you don't see if you drive in and the other right up the other end of the road where the nurseries are, and where residents don't go. Notices very unnoticeable!!!
