Afternoon Sian,

Please find attached proposed site plan with dims as requested.

You will see from my plans that the left side of the steplift is on the boundary, right side is 3m and we have 1.2m from the end of the lift to the pavement. We are proposing to demolish and rebuild the left boundary wall so that it is not as wide to allow for a 300mm gap between the stairlift and the wall.

Please let me know if you need any further details

Kind Regards

Heather Thomas
