ATTN: CASE OFFICER

Dear Sir/Madam

Reference : Ordnance Survey Map

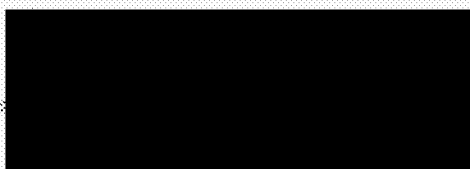

As it was discussed during an early Agents Forum, if the Ordnance Survey is noted to be inconsistent with actual building shapes it should be drawn to your attention.

In this case, I would draw your attention to the fact that existing extensions in the application property and adjacent properties are not shown on the current OS available. I would ask that this is taken into consideration in assessing this application.

Yours sincerely

Liz Galloway (electronic transmission)
