Subject: Fw: Arun Yacht Club further works - metal walkway

Dear Daun Johnson

Please find the reply from the Flood and Coastal Risk Management Officer from the Environment Agency.

Kind regards

Barry

Thanks Barry

Copies of the MMO and LHB licences would be useful to have on file.

If you are able to send them electronically that would be a great help.

Kind Regards

Sue

Hi Sue

Many thanks for your reply and professional guidance on this matter, should there be the need to alter or carry out any additional work on this project I will of course inform you. If you need sight of the Licences from the MMO and the LHB please let me know and I will forward them to you.

Kind regards

Barry

Hi Barry

Thank you for running this past us.

I have checked with Jon Denman and Keely Mowatt and both confirm that as you already have an MMO licence for the work this will suffice. A separate flood defence consent is not required from ourselves in this instance.

If, however, you decide to alter the works or carry out any additional work at any time, then it would be worth checking with us again.

Many thanks.

Kind Regards

Sue

Subject: Arun Yacht Club further works

Hi Sue

Firstly I apologise for having to contact you again regarding another project at our club, I did not realise I needed to do so. At the northern end of our club moorings which are called the Ballast Wharf or the North Moorings it is proposed to install a new metal walkway to replace two old wooden ones that are rather dilapidated. These old walkways give access out from the shore then down a vertical ladder to pontoon moorings to which boats are moored.

The new metal walkway will be anchored to the shore by a hinge arrangement attached to a concrete block approximately 1.89m x 2.4m and on the other end to a float attached to a pontoon thus allowing the walkway to rise and fall with the tide, the walkway will be constructed by a local engineering company

experienced in this field. I did not think this relatively small block of concrete would warrant a Flood Consent Licence but have learned it may do.

I have been granted licences to carryout this work from the following authorities:

1. The Marine Management Organisation.
2. Littlehampton Harbour Board.

Perhaps you would be kind enough to advise me accordingly and if necessary forward the application form that I may need to complete. As yet no work has started on this project.

Kind regards

Barry
