Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Dear Ms. Gardner,

I write to object to the proposed plans for additional beach huts at Littlehampton.

The huts are widely appreciated and always presented as a key image of this town. The current layout with gaps between the differently coloured blocks affords a view of the beach and sea to the many people walking/running/skating/cycling on the promenade. There are currently seats aligned with these gaps which enable those who are unable to venture onto the beach to admire the view. These are used extensively by parents with prams, people who fear falling if they venture onto the pebbles and the users of wheelchairs and mobility scooters. While the occupancy of the seats is currently somewhat curtailed by the current social distancing rules, the seats are still well used by all those who need a resting place.

Turning the promenade and Sea Road view into a wall of hut backs will reduce the enjoyment this quintessential amenity and will particularly adversely impact the elderly and those with mobility problems.

I appreciate the Council always needs to raise revenue but surely not to the detriment of our chief asset as a seaside resort?

Yours sincerely,

Pennie Evans
