I would like to object very strongly to this planning application:

The promenade already has a substantial amount of beach huts that block the view of the beach for both local people and visitors. Adding more would eliminate the few gaps that remain making a view of the beach almost impossible, making access more difficult and also impacting the safety of people using the beach, children in particular, as anyone getting into difficulty within a short distance from the shoreline will not be seen by people North of the beach huts, are you willing to take this risk?.

Regards

Martin Grove
