Dear Anita

Thank you for contacting me. I had extensive correspondence with the architects about the projection of the pontoon into the river before the plans were submitted to ADC and having viewed the planning application, I am relieved to see that they have complied with our request that the "maximum distance from the existing wall at 47 River Road to the outboard side of any moored vessel at this location should be no more than 6.7m".

The plans show the outer edge of the pontoon is 3.6m from the edge of the building so this allows for a maximum beam of 3.1m which is a sensible allowance for this location.

Kind regards
 Anne
