Hi Stuart

Further to my email of 11th March 2019, please find attached updated versions of the following plans:

- Proposed Site Block Plan (ref: 7260-SMR-00-ZZ-DR-A-2001-S3 Rev P7); and,
- Existing and Proposed Roof Plan (ref: 7260-SMR-00-ZZ-DR-A-2008-S3 Rev P2).

Please could these be substituted in for the previous versions submitted with the above planning application.

We would be grateful if you could confirm receipt and substitution of the attached plans.

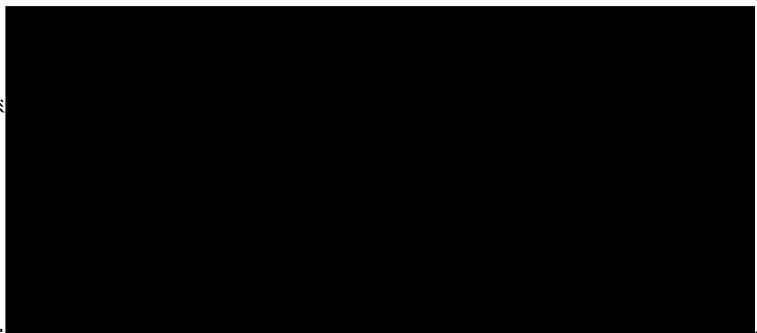

Should you have any queries, please do contact us.

Kind Regards

Aarti O'Leary

Hi Stuart

I write in respect of the above application, for which I am the applicant's agent, to advise that we will be submitting 2 new drawings that will need to be substituted in to the application.

These comprise a revised proposed site layout plan showing a different model of 'vehicle to ground' (V2G) lift; and a revised drawing of the proposed pedestrian bridge.

The revised V2G model is slightly larger than the one previously included.

The site with the new V2G lift model has been tracked by the applicant's transport consultant to confirm that the arrangement works in terms of HGV manoeuvring.

The proposed pedestrian bridge has been slightly amended to meet HGV standards.

We should be in a position to circulate these plans later today, but I wanted to give you a heads up in the meantime.

Please do let me know if you have any queries.

Kind Regards
