Anita

I hope you're well?

My name is Silas Willoughby and I'm the agent working on behalf of the applicant City Fibre.

I've been keeping up with the above application and seen the huge amount of comments made from the public and local groups. I was hoping you can hold off on any potential decision as the client is meeting with local councillors to consider a redesign and/or alternative sites that would be less contentious?

It should be noted that:

- This site was provided by the Council as an appropriate site for a fibre exchange;
- A £25,000 payment was agreed to mitigate the loss of public open space; and
- The Council's Parks Team advised and were happy with the route access across the park from the north, and that a grasscrete system with a soil/grassed top surface would be acceptable along with concrete pin kerb.

Nevertheless, we understand how sensitive this application is for the client and the Council and before making any decisions determining or withdrawing the application, we would like to meet with the Council first.

Is this acceptable to you?

Kind regards
Silas
