Dear Neil,

Please note that the revised FLR planning application, changing it from a full application to an outline, was sent to Arun DC last Friday. The only missing information is the additional ecological report, because as you know, the fieldwork surveys have been delayed by WSCC cutting the long grass across the site midway through the reptile survey. However, I submitted the application in the hope that Arun DC will progress the registration and consultation process so that things aren't held up unduly. The submitted documents include Mayer Brown's revised drawing showing bus layby drop-offs in each direction near the Academy and a toucan crossing at Cornwall Road; and an additional noise survey report addressing noise impacts on the Academy and on properties in Highdown Drive and Amberley Close.

Regards,
 Jeremy
