4/4/2011

Dear Mr Crowther,

As a resident on the eastern side of Highdown Drive, and experiencing the construction of the Academy and the section of the Fitzalan link rd behind my property and all the noise and dust that go with it.

I was amazed to read the response by the environmental health authority to Arun district council when being consulted by them (ADC) on the proposed application (a copy of that enclosed). It would appear that the ADC planning authority have completely ignored the Environmental Health's comments, as points by them have certainly not been addressed or implemented.

I have tried unsuccessfully to get more information on this subject from ADC but to no avail, also what the forecast is for noise i.e. traffic and general movement and density throughout a twenty four hour day. Concerning traffic, at the moment East Street is heavily congested at peak times and to have yet another Road onto that roundabout will create a tail back of traffic on the Fitzalan link, backing up to the A259 roundabout.

I shudder to think what pollution levels will arise from this.

The plan available on the internet does not give enough information regarding how close the pathway and the road is to properties on the eastern side. It is hoped the band of trees will be spared behind our property as it does house considerable amount of wild life. As the football pitches have also been relocated to directly behind us, it should we hope act as a sound barrier.

My wife and I retired here five years ago and approached ADC as to what the plans were for this Development as we were told it was mentioned many years ago, but abandoned.

ADC assured us it was a no go, certainly not in our lifetime.

However five years down the line we have absolute chaos, noise, and dust with the Academy being Built and the proposed road.

Obviously our property has been devalued and we are very concerned as to our future here.

Is another road really necessary into Littlehampton as there are already two.

I look forward to your comments.

Yours sincerely

Mr J Lines.
