Dear Mr Crowther

I am writing to you as the planning officer dealing with the above application.

I wish to object most strongly to the proposed Fitzalan Road extension which would run directly behind my property, on the grounds of extreme annoyance from high levels of noise that would be generated not only from the construction of the aforementioned road but permanently once the road is in place and in use.

In fact I wish to reiterate the findings from Mr Graham Evans , Senior Environmental Health Officer with Arun District Council who on the 16th March 2011 in a memo to the Planning Department, Arun District Council stated that very fact.

This is a assault on the sanity and well being of the residents of Highdown Drive and Amberley Close who's properties back on to the proposed site.

We were led to believe that the developers were taking adequate measures to minimise the catastrophic effect that the proposed road would have on our lives, this memo proves otherwise. What other facts have been disguised in order to forward the aims of the developers?

I, as I am sure will other residents fiercely object to this proposed construction and put it to Arun District Council Planning Department to turn down this construction without further delay.

Yours faithfully

A large black rectangular box redacting the signature of Howard Barnett.
