- Secure
- Made to measure
- Factory installation
- 10-year guarantee

Welcome

The joy of this flexible system is in its ability to retain an outdoor option for those sumptuous summer days when everyone will want to enjoy their outdoor swimming.

TAKE CONTROL OF THE WEATHER

An enclosure not only provides the potential for year-round swimming but also extends the swimming day and at the same time creates an elegant additional room for entertaining and exercise. Widths from 5m to 25m (16ft to 82ft) with unlimited length.

Putting a pool under cover is a realistic and affordable solution to coping with unpredictable weather in all seasons. In fact, all enclosures are either fixed in position or are available as moving sections that can be telescoped open on tracks in minutes.

There are security advantages too -

improved safety by keeping unwanted visitors, unsupervised children and pets away from the pool. Child safety windows conform to new EU regulations.

We supply a complete fixed price, custom built turnkey package; design, manufacture, construction and installation by our engineers.

Each building has a 10 year manufacturer's guarantee.

Year Round Swimming

The affordable solution to coping with unpredictable weather.

The logical solution for the ultimate luxury...

Swim in comfort – Everyday, anytime of year!
