

Hi Iqraa,

With regards to the request for further information for the above project.

Yes I agree to the decription being changed to 'two storey infill rear extension and installation of first floor side window.'

I've added dimensions to the block plan, attached.

I've updated the date on the CIL form, attached.

I've updated the date on the form online and have also changed the client's surname.

Let me know if you need anything else.

Regards,
