RECEIVED

06/04/19,

Dear Juan Baeza,

I wish to make an objection to the Planning application for Pop up, food and other vendors on Littlehampton Esplanade.

I must protest most profoundly about this application on numerous grounds.

Both Environmental, littering, smell, seagull nuisance and other considerations especially during the Summer months.

These problems already exist all year round, along with problems like dog fouling, chewing gum and other nuisances, which the council seem to be unable to cope with at present and definitely not in the Summer period. This has been getting worse over the last 5 or 6 years.

There is also the Marine and shoreline implications that would be increased and is a main priority.
