Dear Sir/Madam

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Change of use of parts of seafront for temporary food & drink outlets & other seaside uses together with associated temporary/portable structures & equipment for use by businesses associated with those outlets.

Various sites along Littlehampton Promenade Littlehampton

Thank you for your internet representation made on 18th April 2019 which has been recorded as '**an objection**' with the comments as follows:

Dear, Mr A Wood

I am writing to object against this Application.

1- Loss of a dedicated car park for coaches-Eliminating parking space for coaches will result in not only these coaches finding elsewhere within the Town to park, but will also result in more people travelling by car; limiting spaces for residents and worsening the car parking situation which is already in chaos and frustrating the people that live here.

2- Loss of Littlehampton's unique selling point- With these mobile Kiosks radically reducing the size of our promenade during the time of year when it is at its busiest anyway, We will be removing what Littlehampton has that other local seaside towns do not- A large promenade. We currently have a promenade that boasts in its size and views with modest kiosks that provide the gifts and seaside goods without taking up the unique size and space that attracts both local residents and visitors. With the placement of mobile kiosks throughout the promenade we are eliminating one of the key factors that differentiate ourselves from other local seaside towns and for what- having tacky, ugly looking kiosks selling goods that we are already providing?

After the investment of the Littlehampton Wave which includes views of our promenade, I am sure you hope that it will bring more people to Littlehampton to use this service, so why reduce a key unique quality and views of our wonderful promenade with ugly mobile

kiosks and noisy generators that do not provide any new services and put the current kiosks who have been working successfully for generations at risk?
