Dear Sir/Madam

I am writing in regard of the proposed studio apartment with roof extensions of the above property.

Having gone to the expense of converting that large roof space, I would be concerned that at a later stage a few more studio flats will be gradually introduced.

As I have mentioned in previous correspondence our bungalow is built in the back garden of the above property, with both back gardens being a matter of a few feet.

As I have already stated the property is already over extended, and our privacy will be further eroded.

Yours sincerely
