CONCLUSIONS

PRINCIPLE

In this case, the key policies are deemed to be D DM1 and D DM4 of the Arun Local Plan. Additionally, Policy 1 and 2 of the Littlehampton Neighbourhood Development Plan.

Policy D DM1 sets out 13 design aspects of which applications should be assessed against. These include: Character, Appearance, Impact, Innovation, Adaptability, Crime Prevention, Trees, Public realm, Layout, Public Art, Density and Scale.

Policy D DM4 sets out criteria for which applications relating to extensions and alterations of existing buildings must be assessed against. They generally seek to minimise the impact of the proposal on the character of the host dwelling, its neighbours and the locality.

Policy 1 of the Littlehampton Neighbourhood Development Plan states that permission should be granted where applications accord with the relevant policies in the Neighbourhood Plan. It goes on to set out circumstances where an applications conflict with Policy 1 would be acceptable.

Policy 2 of the Littlehampton Neighbourhood Development Plan seeks to focus development within the built up area boundary.

DESIGN AND VISUAL AMENITY

Due to its siting, the proposed development will be visible within the street scene, and as such, is considered to result in a change in appearance to the host dwelling.

The proposed front extensions projects forward of the Westernmost elevation of the host dwelling, and as such, beyond the building line adhered to along the parade of dwellings to the North. However, this is a moderate projection forward of the building line which is not sufficient to form a reason for refusal of this application.

Furthermore there are examples of dwellings along the Western side of Tideway of which are closer to the street scene than the proposed development, therefore, whilst the proposed development is considered to result in a change in appearance to the host dwelling it is not considered to result in unacceptable harm to the character of the locality.

The proposed extension is considered to appear well integrated with the host dwelling, and appears visually subservient to the host dwelling. This is due to its modest scale, and the use of matching materials to the host dwelling.

The proposed development is considered to be in accordance with D DM1, D DM4(a) and (b) of the Arun Local Plan.

NEIGHBOURING RESIDENTIAL AMENITY

The proposed development is not considered to result in any significantly harmful overbearing or overshadowing impact upon the occupiers of neighbouring dwellings. This is due to the siting of the proposed extension, and its scale allowing for a separation distance of 3.3m to the Northern boundary of the application site. There is not considered to be any loss of privacy as a result of the extension, due to

its single storey nature, and siting.

The proposed development is deemed to accord with D DM1(3) and D DM4(c) of the Arun Local Plan.

SUMMARY

The proposed development is deemed to accord with relevant development plan policies and as such is recommended for approval subject to the following conditions.

HUMAN RIGHTS ACT

The Council in making a decision should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as Arun District Council to act in a manner, which is incompatible with the European Convention on Human Rights.

Consideration has been specifically given to Article 8 (right to respect private and family life) and Article 1 of the First Protocol (protection of property). It is not considered that the recommendation for approval of the grant of permission in this case interferes unreasonably with any local residents' right to respect for their private and family life and home, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general interest and the recommendation for approval is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

DUTY UNDER THE EQUALITIES ACT 2010

In assessing this proposal the following impacts have been identified upon those people with the following protected characteristics (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex or sexual orientation).

The proposal would have a neutral impact on the protected characteristics.
