Thank you for the consultation. The comments of the **Arun District Conservation Area Advisory Panel** are as follows:

No Objection

Section 72(1) of the Listed Building Act 1990 applies and the views of the Panel regarding the impact on the East Street Conservation Area are as follows.

No 59 East Street, Listed Grade 2, occupies a prominent position in East Street and at 2 storeys in height with a distinctive tall mansard roof above, it makes a positive contribution to the character and appearance of the conservation area. It is an attractive feature, especially at the eastern entrance into the East Street Conservation Area and its pale coloured stuccoed facades contrast pleasantly with nearby flint buildings and walls.

There is a comprehensive D&A/Heritage Statement submitted with the current application which greatly assists in understanding the proposals and their impact on the significance of the designated heritage assets.

Extensive two storey extensions of indifferent design were added to the core building, mostly in the late 20th century/early 21st century. The proposed introduction of natural slated canted /mansard roofs improves their appearance and is also sympathetic with the form and massing of the original late 18th/early 19th century building. Importantly, even though an extra storey is added, the heightened extensions will still be visually subservient to the core building.

The Heritage Statement indicates that the inappropriate pvcu windows in the core building will be replaced with sash windows to match the originals and that natural Welsh slates will be used on the new mansard roofs. These proposals are welcomed but given the Listing status and prominent location in the conservation area it is recommended that conditions are attached to any Listed Building Consent requiring the submission of a sample of the natural slate and precise details, including materials, design and operating mechanism of all new and replacement windows.

Subject to these details being satisfactory then it is considered that the proposals will comply with the relevant paragraphs of the NPPF and policies contained in the ADLP relating to the protection and enhancement of designated heritage assets.

Kind regards,

Brian Banister

On behalf of ADCAAP
